SKILLS

 Flutter | dart

 Java

 python

EDUCATION

Software Engineering

3rd year software engineering student
at ASTU.

ABOUT ME

Am a Junior Flutter Developer with a strong foundation in Dart, java and python. I have good coding problem solving skills and currently am elevating my skills by building responsive and dynamic mobile applications.

Always passionate to learn new technologies and be part of a team to get experience and sharpen my skills.

EXPERIENCE

Junior app developer

I have designed and developed apps using flutter and currently am developing my own project to build a good quality app.

PROJECT

Store management system

Simple java app to manage store and order items

To-Do app

App to keep track or daily works

FitLife

App for gym workout tracking
(am currently working on it)
